HOW TO PAIR A REMOTE TO ANOTHER ALARM

With the <u>remote</u> that came with the alarm:

1. Press and hold the doorbell button for about 7 seconds (will firstly hear *beep-bawp*, then a few seconds later a final *beep*)

2. With the **2nd** Remote pointed at the **1st** Alarm, press unlock on the **2nd** Remote to pair it with the **1st** Alarm. A red light should appear on the alarm and a *beep* should sound to let you know the **2nd** Remote has connected with the alarm.
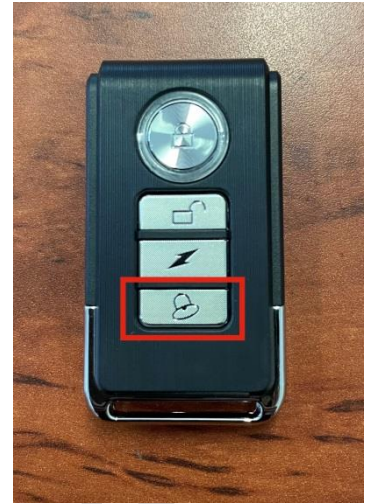

3. Now both remotes are working with the **1st** Alarm.

4. To then pair the 1st remote to the **2nd** Alarm, start with the remote that came with the **2nd** Alarm and:
    - Press and hold the doorbell button for about 7 seconds (will firstly hear *beep-bawp* then a final *beep*)

5. With the **1st** Remote pointed at the **2nd** Alarm, press unlock to pair it with the **2nd** Alarm.

6. Now both remotes should be working for every alarm, this can be done with multiple alarms for one remote.

^ DOORBELL BUTTON ^

*A red light will appear when remote is being used with an alarm.
